

Airboss Defense Group Vapor Barrier Bunny Boot

The Airboss Defense Group Vapor Bunny Boot supports warfighters during extreme cold conditions (a 'worst-case scenario') that includes regions such as Alaska, Siberia, the Arctic, and the Antarctic poles. This large, bulbous, waterproof rubber boot can be worn in extremely cold weather, -20°F to -60°F (-29°C to -51°C). The liner-free interior retains warmth by sandwiching up to one inch of wool and felt insulation between two vacuum-tight layers of rubber. The design of the Vapor Bunny Boot includes an air valve system that relieves air pressure while airborne and allows the wearer to check the boot for leakage. Available in sizes 3 to 14 (narrow, regular, and wide).

Features

- Currently in service with U.S. and Foreign Armed Forces
- Provides excellent thermal insulation down to -60°F (-51°C)
- Excellent physical properties
- Resistant to mold, mildew, and fungus growth
- 100% waterproof CBRN resistant
- Petroleum, oil, and lubricant (POL) resistant soles
- Compatible with snowshoes, crampons, and military ski systems
- Pressure relief valve

Specifications

- Weight: 7.25 lb (3.29 kg) per pair (size 9 boot)
- Height: 11 in (279 mm) size 9 boot
- Color: White
- Sizes: 3 to 14 (narrow, regular, and wide)
- Interface: Compatible with standard issued ski bindings, crampons, and snowshoes. The boots include a ski-strap shelf.
- Water Resistance: 100% waterproof
- Slip Resistance: Slip-resistant sole and heel
- Toxicological Resistance: Minimum resistance to mustard penetration of 75 minutes and a minimum resistance to Isopropyl methylphosphonofluoridate (GB) vapor of 100 minutes
- Thermal Insulation: Minimum overall insulation Clo value of 1.6, and an average Clo value of 1.8 at the toe.
