

Byer Maine Military Cot HD

The Maine Military Cot HD is the largest and strongest Byer model. It is crafted with full 1-1/4" square aircraft aluminum tubing and all stress points are reinforced with a secondary steel tubing. The strong rip-stop polyester fabric is treated for water repellency and is reinforced along the center of the sleeping surface. The cot also features a generous gear pouch with multiple pockets. This heavy-duty cot has been strength tested to a capacity of 1,100 pounds and has a conservative weight capacity of 375 pounds. The Maine Military HD is the ideal solution for emergency preparedness, when large size and high strength are necessary. The cot comes with straps and a carry bag for easy transport. Color: Forest Green. Dimensions: 84"L X 30"W X 18"H. Weight: 22 lbs. Weight Limit: 375 lbs.
