

## First Line Technology FastGrab EMS Decon Kit

The First Line Technology FastGrab Decontamination Kit is a quick response bag for scenarios in which contamination is a problem. It brings together three members of First Line Technology's Decon Family into a quick response kit that is easily stored and easily deployed. The Kit contains FiberTect (a three-layer activated carbon composite wipe), Responder Decon Kits (RDKs) that include RSDL Kits, and Dahlgren Decon, First Line Technology's efficient wet decon solution. Team size: 2 - 6.

(4) Responder Decon Kits (RDK)

(4) Polyester FiberTect Mitts (L)

(10) Polyester FiberTect 12" x 12" Wipes

(2) 200 mL Dahlgren Decon

(1) 500mL Beaker and stir rod

(1) Spot Shot Spray

### Highlights

- Easily Stored & Deployed
- Minimal Training Required
- Helps Prevent Secondary Contamination
- No Water or External Cleaning Solutions
