

First Line Technology Opioid Detection Kit (ODK)

The First Line Technology Opioid Detection Kit (ODK) is powered by BTNX and contains everything needed to rapidly test and detect (on-scene) traces of synthetic opioids including Fentanyl and it's analogs.

Contents Include:

- (2) Swab sticks
- (2) 5mL vials of sterile water
- (2) Test tubes
- (2) BTNX Rapid Response Test Strips designed specifically to detect traces of synthetic opioids including fentanyl and its analogs
