

Vericor 48" Workstations

The Vericor 48" Workstation is an excellent solution for mobile point-of-care access of supplies. Choose from the 3 drawer or 6 drawer model. Both models have a detachable table for extra workspace. The refrigerator (adjustable and without freezer) model has three drawers for storage and a refrigerator for vaccine or other temperature sensitive product. The unit opens up easily by undoing a few latches and is immediately ready to work. This self-contained workstation is on wheels and is ideal for in-field clinics needing to store, organize, and transport medical supplies. It has transport handles so the unit can move when and where it is needed. It is lockable for secure storage and has glove holders in the lid for easy access. It also has easy lock wheels with a wide wheelbase so the unit can be maneuvered easily and safely.
