

# Vericor Hospital and Treatment Modules

Vericor Hospital and Treatment Modules are ideal for when supplies and personnel are limited, and the time for evacuation is unknown or prolonged. In the complete Vericor Hospital and Treatment System, there are five modules (all sold separately) addressing five levels of care. Two of these modules have options. The complete system provides secondary triage and definitive treatment for a surge of 100 patients. Supplies and equipment are packaged within Response-Friendly organizers and color-coded cases, and can be deployed in minutes. Color coordination, clear identification, ready supplies, and intuitive organization allows responders to work quickly and efficiently. Included in the complete system is the intuitive SmartBook, that further makes the system ready to respond.

Triage Module	
Module Name	Vericor Hospital and Treatment Module – Triage
Item Number	VER-TT-T
Description	The Triage module provides the components necessary for medical staff to determine priorities for who gets care first by sorting injured or sick people according to their need for emergency medical attention. This Triage and Treatment module is utilized during a patient surge in the wake of a disaster. It is intuitively organized and packaged to be Response-Friendly.
Supported Care Functions	<ul style="list-style-type: none"> <li>• Triage</li> <li>• Staff PPE</li> </ul>
Includes	<ul style="list-style-type: none"> <li>• One (1) Rolling Chest</li> <li>• One (1) Upright Medical Organizer</li> <li>• Four (4) Backboards</li> <li>• Triage Tags</li> <li>• Cervical Collars</li> <li>• First Aid Kits</li> <li>• Litters</li> <li>• SmartBook Operators Manual</li> </ul>

Expectant Treatment Module	
Module Name	Vericor Hospital and Treatment Module – Expectant Treatment
Item Number	VER-TT-ET
Description	The Expectant Treatment module provides the components necessary for medical staff to address victims who would not survive with optimal medical care. This Triage and Treatment module is utilized during a patient surge in the wake of a disaster. It is intuitively organized and packaged to be Response-Friendly.
Supported Care Functions	<ul style="list-style-type: none"> <li>• Post-mortem</li> <li>• Staff PPE</li> </ul>
Includes	<ul style="list-style-type: none"> <li>• Two (2) Mobile Medical Cases One</li> <li>• (1) Upright Medical Organizer</li> <li>• SmartBook Operators Manual</li> </ul>

Minor Treatment Module	
Module Name	Vericor Hospital and Treatment Module – Minor Treatment
Item Number	VER-TT-MT
Description	The Minor Treatment module provides the components necessary for medical staff to care for casualties who have minor injuries. This Triage and Treatment module is utilized during a patient surge in the wake of a disaster. It is intuitively organized and packaged to be Response-Friendly.
Supported Care Functions	<ul style="list-style-type: none"> <li>• Examination</li> <li>• Orthopedics</li> <li>• Staff PPE</li> <li>• Wound Care</li> <li>• Wound Closure</li> </ul>
Includes	<ul style="list-style-type: none"> <li>• One (1) Rolling Chest</li> <li>• Four (4) Upright Medical Organizers</li> <li>• One (1) Medical Organizer with four (4) Drawers &amp; Table</li> <li>• SmartBook Operators Manual</li> </ul>
