

# Vericor Medical Equipment Organizer

The Vericor Medical Equipment Organizer protects large equipment during storage and enables the mass movement and deployment of bulk supplies. Large casters enable this organizer to move easily on carpet, vinyl, wood and concrete flooring. The all-welded steel construction has no sharp edges and is ideal for the protection of medical assets. It features two adjustable shelves in 2.5" increments, a protective cover, one steering handle, two lockable swivel casters, two rigid casters, a see-through design, and is lockable. Available with choice of blue or black cover. **Made in America.**

*Shown with Folded Cover  
(Included, Choice of Blue or Black)*
