

First Line Technology DeconKeg Sprayer

A great alternative to electrostatic sprayers! First Line Technology's DeconKeg™ portable sprayer is designed to be adaptable for large-scale decon missions or infectious disease control with a small-scale logistical footprint. Do not use with chlorine-based decontaminants. Can be used with Dahlgren Decon.

Highlights

- Pressurize with any air compressor
- Stainless steel tank
- Quick-connect valve for hose attachment
- Viton-sealed trigger
- Adjustable pattern nozzle
- Flow control valve
- Built-in pressure release valve
- Holds pressure charge for 30 days
- Portable
