

## First Line Technology Hurricane ES Decon Fogger

Ideal for large-area decontamination, the 110V Hurricane ES Electrostatic Fogger™ utilizes proven electrostatic technology to charge each droplet to provide effective application of formulations. The droplets stay separated due to the charged nature allowing uniform, even coverage on the entire target surface every time.

### Highlights

- Works with Dahlgren Decon and other water-based decontaminants
- Precision flow rate and droplet control
- Uniform and consistent coverage
- Droplet size can be controlled for both ULV and residual spraying
- Stainless Steel Metering Valve
- No Batteries Required
- Made in the USA

### Dahlgren Decon Highlights

- 10+ year shelf-life
- Safe for use on PPE, sensitive equipment, and critical infrastructure
- Non-corrosive, non-flammable, and no threat of material degradation
- Compatible with most detectors
- No toxic by-products
- 12 hour pot-life for most threats\*
- Store in temperatures from -40°F – 160°F (-40°C – 71°C)
- Use in temperatures from -20°F – 160°F (-20°C – 71°C)
- Mixing Beaker and Stir Rod included\*\*
- Made and sourced in the USA
