

Vericor 42" Workstations

This mobile workstation is an excellent solution for Mobile Point-of-Care Access of supplies. It has either 3 or 6 drawers for storage (depending on model), and a detachable table for working on. The refrigerator (adjustable and without freezer) model has three drawers for storage and a refrigerator for vaccine or other temperature sensitive product. The unit opens up, and is ready for work, easily by undoing a few latches. This self-contained workstation is on wheels and is ideal for in-field clinics needing to store, organize, and transport medical supplies. It has transport handles so the unit can move when and where it is needed. It is lockable for secure storage and has glove holders in the lid for easy access. It also has easy lock wheels with a wide wheel base so the unit can be maneuvered easily and safely.
