

Vericor Medical Equipment Chest

The Vericor Medical Equipment Chest is a storage container, chest, and medical organizer all-in-one. This durable case protects assets during storage and enables the mass movement and deployment of vital medical gear in the field. It also helps to keep responders safe with many standard features. The large all-terrain wheels with a wide wheel base and brakes, enable this chest to move easily on carpet, vinyl, wood and concrete flooring. It features two removable trays, locking lid stays, four recessed handles, and butterfly latches. Available in 11 colors. **Made in America.**
